Subject: Adult Neurological and Mental Health Services for Patients Receiving long-term Nursing Care in Care Homes

I can confirm that the ICB does hold some of the information requested; please see responses below:

QUESTION	RESPONSE
Please refer to requesters template enclosed.	

The information provided in this response is accurate as of 1 May 2025 and has been approved for release by Rosi Shepherd, Chief Nursing Officer for NHS Bristol, North Somerset and South Gloucestershire ICB.

For the avoidance of doubt, when referring to the terms 'neurological' and 'neurological care need', please include; brain injury (including acquired brain injury and traumatic brain injury), spinal injury, neuro-disabilities (including but not limited to Parkinson's disease, early-onset dementia, multiple sclerosis, motor neurone disease, Huntington's disease, cerebral palsy and epilepsy), stroke, neurobehavioural rehabilitation and cognitive rehabilitation. This list is meant as a guide and is by no means exhaustive.

For the avoidance of doubt, when referring to the term 'mental ill-health', please include; anxiety, depression, personality disorder, severe affective disorders, schizophrenia, and mental ill-health that causes challenging behaviour, all of which are to such a degree that the person experiences significant impairment and as such is unable to care for themselves independently. This list is meant as a guide and is by no means exhaustive.

The answers for Mental Health (MH) are based on those MH patients that have been assessed as eligible for CHC funding only, due to this being part of a joint commissioning arrangement with area Local Authority's, as it is dependent on the clinical presentation and care required on an individual patient basis. (Questions 1-6).
